MICHAEL DODD

I, _____, have requested that the City of Wink install a water or sewer tap on property located at

_____.

I understand that the City has requested and strongly suggests that a land survey be conducted on the property prior to the installation of a water or sewer tap.

I further understand and agree that if a land survey is **not** provided to the City, the City will rely solely on my representation of the ownership of the property and the property lines.

In addition, I agree to hold the City harmless of any errors or mistakes regarding the ownership and/or property lines. I agree that should there be an error that requires restitution to another party and/or the removal or relocation of the water or sewer tap, I shall be solely responsible for any and all costs, and in no event shall the City be monetarily responsible.

Signed on the _____ day of.....;2026
